Reflection Questions and Answers

1. Did your estimations reflect the actual effort?

Yes. The assigned story points reasonably reflected the effort required for each user story.

2. Was your backlog well-prioritized?

Yes. The backlog was organized according to the importance and dependency of the work items.

3. How did your simulated sprint align with your plan?

The sprint aligned well with the plan because all the planned work items were completed within the sprint.

4. What insights did the burndown chart give about your team's capacity?

The burndown chart showed that the team was able to complete the planned 31 story points efficiently, indicating good team capacity and progress during the sprint.
